

Jones Waldo

Based in Salt Lake City, **Jones Waldo Holbrook & McDonough PC** is a dynamic law firm representing many values. To their clients, they are an invaluable partner, dedicated to providing innovative solutions based on the highest level of legal expertise. To their attorneys, they are an exciting place to practice, where more than 85 lawyers all have the opportunity to practice in a way that nurtures their passion for the law.

To their staff, they are a diverse work force committed to supporting the firm's practice through a team oriented approach in a pleasant, professional work environment. To their community, they are a conscientious contributor, reaching out to help the community they've been a part of for more than 130 years. Across all of these relationships, they're aspiring to be more than another law firm-- Jones Waldo - your partner.

Requirement

Jones Waldo first purchased EBS Punch from **Employee Based Systems**. The punch application was used by about 20 employees to record their hours worked. Having been pleased with the Punch applications, they decided to investigate the rest of the modules in the EBS time and attendance system.

This interest was prompted by the fact that Jones Waldo already had a time attendance system in place, but it took nearly a full week of someone's time to transfer employees worked hours data into their payroll system. It was decided that a more efficient system would better serve the firm.

Seamless Integration

According to Easter Farnsworth, integration with their existing Abra Payroll software was paramount. "**EBSTime** had seamless integration with Abra and once the implementation was done they found that it's easy to use and they could easily import data into their current payroll system."

Support and Services

Ester Farnsworth had this to say about the implementation process: "The help that the EBS support team provided during the implementation was great. They have been very responsive and have made it a point to answer all my questions in a timely manner. The system itself has met every one of our needs and requirements."

"We have about 110 employees, both salaried and rest hourly employees. Salaried employees use **EBS Web Time Sheet** and hourly employees use **EBS Web Punch** for their time entry. The 2 products work perfectly for the respective groups of workers."

--Ester Farnsworth, Payroll Manager
